

Athletes and parents...what you need to know!

The Mizuno USA Michigan volleyball club is on the hunt for athletes with the following characteristics (and much, much more):

1. An athlete who has a mindset to improve each and everyday:
 - Do you want to improve or do you need to improve?
 - Are you coachable? How so?
 - Program-first attitude.
2. Realize that the top athletes in the world have and embrace a structured plan for success.
3. Top class athletes give maximum effort both cognitively and in their actions and skills.
4. Practice, practice and practice. We don't think you have to, we know you have to! Playing time is predicated on practice performance.
5. Our company works best with parents who can promote an ongoing support system for the organization, team, coaching staff and athletes. We also appeal to our parents to not hover over their daughter's every move and allow them space during training and competitions.
6. And this is a big one...the school you attend has absolutely no bearing on our evaluation, selection, placement, training and competition decisions. Refreshing, eh? ☺
